in this short and provocative book cultural studies scholar angela mcrobbie develops a much needed feminist account of neoliberalism highlighting the ways in which popular culture and the media actively produce and sustain the cultural imaginary for social

polarization she shows how there is substantial pressure on women not just to be employed but to prioritize working life she fiercely challenges the media gatekeepers who shape contemporary womanhood by means of exposure and public shaming and pays particular attention to the endemic nature of anti welfarism as it is addressed to women thereby reducing the scope for feminist solidarity in this theoretically rich and deep analysis of current cultural processes mcrobbie introduces a series of concepts including visual media governmentality and the urging of women into work as contraceptive employment foregrounding a triage of ideas as the perfect imperfect resilience mcrobbie conveys some of the key means by which consumer capitalism attempts to manage the threats posed by the new feminisms she proposes that resilience emerges as a compromise as hard edged neoliberalism proffers the option of a return to liberal feminism a lively and devastating critique feminism and the politics of resilience offers a much needed wake up call it is essential reading for students and scholars of cultural studies media sociology and women s and gender studies

secular societies spiritual selves is the first volume to address the gendered intersections of religion spirituality and the secular through an ethnographic approach the book examines how spirituality has emerged as a relatively silent category with which people often signal that they are looking for a way to navigate between the categories of the religious and the secular and considers how this is related to gendered ways of being and relating using a lived religion approach the contributors analyse the intersections between spirituality religion and secularism in different geographical areas ranging from the netherlands portugal and italy to canada the united states and mexico the chapters explore the spiritual experiences of women and their struggle for a more gender equal way of approaching the divine as well as the experience of men and of those who challenge binary sexual identities advocating for a queer spirituality this volume will be of interest to anthropologists and sociologists as well as scholars in other disciplines who seek to understand the role of spirituality in creating the complex gendered dynamics of modern societies

this anthology is an attempt to make sense of conferences and trade fairs as phenomena in contemporary society the authors describe how these large scale professional gatherings have become key sites for making and negotiating both industries and individual professions in fact during the past few decades conferences and trade fairs have become a significant global industry in their own right the editors assert that large scale professional gatherings are remarkable events that require deeper analysis and scholarly attention

the second volume of rethinking women's and gender studies addresses the complexities and inherent paradoxes within the expansive knowledge project known as women's and gender studies for audiences both inside and adjacent to the field. Each of the volume's chapters identifies and critically examines a key term that circulates in this field, exploring how the term has come to be understood and mobilized within its everyday narratives and practices in constructing provocative genealogies for their terms. Authors explicate the roles that this language and the narratives attached to it play in producing and limiting possible versions of the field. The ongoing aim of rethinking women's and gender studies, both in the original volume and this entirely new extension, is to trace and expose important paradoxes, ironies, and contradictions embedded in the field, from its high theory to its casual conversations that rely on these terms, forging collective conversation and intellectual community from its thoughtful and critical lines of inquiry. The second volume of rethinking women's and gender studies remains bracingly original and full of fresh insight; it provides a perfect complement for feminist theory, senior capstone, and introductory graduate-level courses offered in women's and gender studies and related fields.

One of the most rapidly growing religious movements in the United States, feminist spirituality first came of age during the religious ferment of the 1960s. It has since emerged as one of the sturdiest survivors of that era of religious experimentation. The goddess, her worshipers, and the myth of her reign over humankind's prehistory are becoming familiar features in the American religious landscape and are gradually spreading beyond their roots into the cultural mainstream. In spite of its increasing cultural presence, feminist spirituality is poorly understood by those not participating in its development or privy to its secrets. Why do these women worship a goddess, and who is she? What do they do when they meet together, and what do they do alone? What attracts them to feminist spirituality? Are they part of a passing cult, or are they creating a new religion that will one day take its place alongside Judaism, Christianity, and Islam in the West? What are their hopes for the world, and what are they doing to see their dreams actualized? Living in the Lap of the Goddess answers these questions and more, drawing on scores of interviews with spiritual feminists, participant observation in feminist spirituality's rituals and retreats, and a close reading of the movement's many texts. Sociologist of religion Cynthia Eller describes this innovative spiritual movement in detail. Among the topics covered are the origins of feminist spirituality, its use of ritual, myth, and magic, and the politics with which spiritual feminists determinedly intertwine their religion. The feminist spirituality movement represents an important option for feminists: the critical third choice available in the false dilemma between reforming patriarchal religions and giving up on religion altogether. Living in the Lap of the Goddess introduces the reader to this important

option and the infinite variety that is the feminist spirituality movement memorable characters are met in the pages of this book and novel theories on gender deity human civilization and the universe are encountered throughout the key question guiding this venture into the alternative religious world is this who are these women and why are they doing what they do saying what they say thinking what they think the answers like the participants themselves are manifold and intriguing book jacket title summary field provided by blackwell north america inc all rights reserved
